

SAURABH AGARWAL

Managing Director, CDPQ India

Managing Director, Infrastructure, South Asia & Middle East

Saurabh wears two hats at CDPQ. In his continuing role since March 2017 as the Managing Director, Infrastructure, Saurabh is leading CDPQ's infrastructure activities in South Asia and Middle East and is responsible for strategy development, sourcing, evaluating, executing and managing high-quality infrastructure investments, as well as developing long-term partner relationships in these regions.

In his additional role as the Managing Director of CDPQ India (since March 2022), he takes an active role in positioning CDPQ as a partner of choice across asset classes - public equities (direct and indirect), debt, private equity, and infrastructure – while representing the organization in the financial and business community, as well as with key stakeholders including the government and the regulators.

Mr. Agarwal has over 21 years of investment and technology sector experience. Before joining CDPQ in 2017, he spent over 10 years at Morgan Stanley, most recently as Executive Director at Morgan Stanley Infrastructure Partners (MSIP), a global infrastructure fund, playing a key role in acquiring and managing fund investments. Prior to this, he was a scientific researcher in supercomputer technology at IBM Research Labs and Wipro Global R&D Center.

Mr. Agarwal holds an MBA in Finance from the University of Michigan, a Master's in Computer Science from Pennsylvania State University and a Bachelor's in Computer Science and Engineering from India's National Institute of Technology, Rourkela. He currently serves as the Managing Director on the board of CDPQ India. He also serves as a non-executive director (NED) on the boards of A) Apprava Energy, B) Maple Infra InvIT Investment Manager Private Limited and C) Maple Highway Project Management Private Limited, certain investee companies of CDPQ in India. He has previously served as NED on the Boards of several investee companies of MSIP.
