## ABOUT

Shiv Ranjan is the Head of Technology Management and Transformation at the Sun Life Asia Service Centres (ASC). He is spearheading the digital transformation roadmap of Sun Life ASC by setting up new ways of working and establishing digital capabilities for global delivery and innovation and strategizing tech talent. Shiv is passionate about building high performance Technology delivery teams and capabilities for enterprises to deliver global mandates. Shiv has also defined and implemented strategy for setting up global shared services capability and is driving global technology sourcing strategy for a large bank.

Shiv Ranjan is Technology professional with more than two decades of experience. He has worked with spectrum financial services organizations where he has worked on solving business problems leveraging latest technologies. Shiv has worked with different cultures and markets across Americas, Europe and Asia. An engineering graduate from NIT Nagpur, he is an alumnus of IIM Calcutta.

Shiv is life-long learner and thought leader in emerging technologies & business and digital transformation.
